Future Computer Programmer

Science, Technology, Engineering and Math (STEM) education is among the most competitive and sought-after programs in the world. STEM promotes innovation, critical thinking, and science literacy, and is a key driver of economic growth and technological advancement. The trajectory of the future of education and the career sector is contingent on an increased need for basic and advanced application and understanding of math and science.

The Global STEM Leadership Program (GSLP) is available to children ages 8 - 18. The program will provide children and youth with immersive STEM-based learning.

Students will have the opportunity to engage in unique local and global STEM opportunities, programs, workshops, and mentorship sessions directed towards the pursuit of post-secondary education and enhanced STEM career aspirations,

The Global STEM Leadership Program (GSLP) combines STEM concepts and education with hands-on leadership opportunities and leadership studies.

Science, Technology, Engineering and Math (STEM) is increasing in popularity. All four disciplines are continuously expanding into every aspect of our lives. The skills gained from STEM education will not only cultivate passion and interest for STEM, but equally prepares children to forge successful careers in any field.

10 Benefits of the STEM Leadership Program:

1. Exposure to unique Global STEM opportunities.
2. Interaction with prominent STEM and Tech companies worldwide (Google, Microsoft).
3. University driven mentorship from Grade 5.
4. Creation and innovation of STEM-based projects.
5. Long lasting friendships and networking connections.
6. Develop critical transferable leadership skills.
7. Develop and enhance problem-solving skills, analytical and critical thinking.
8. Teaches teamwork and collaboration.
9. Prepares children for future technological changes and innovations.
10. Students build resilience
